

LRRB Update – Jeopardy Style

A Jeopardy-style LRRB update engaged audience members at the 2013 Minnesota County Engineers Association (MCEA) and City Engineers Association of Minnesota (CEAM) annual conferences in January. Developed by SRF Consulting Group, the Jeopardy game was created specifically to share LRRB facts and trivia, including project updates, research results and new research initiatives. Conference attendees competed in teams to answer 25 questions in five categories: ADA Transition Plans, Complete Streets, LRRB Website & Social Media, Systems Preservation, and LRRB Potpourri. SRF's Mike Marti and Renae Kuehl hosted the interactive game and conference participants played along by using remote clickers to submit their answers.

Do you have what it takes to join the LRRB winner's circle?

Below are two of the 25 questions from the game. See if you can answer them!

Q1 - ADA Transition Plans (100 points)

By what date do ADA Transition Plans (for public rights of way) need to be completed?

1. July 1992
2. January 2000
3. July 2013
4. January 2014

Q2 - LRRB Website and Social Media (500 points and Daily Double)

The LRRB is close to finalizing YouTube videos on which set of four topics?

1. Flashing Yellow Arrows, Crosswalks at Roundabouts, Stop Signs, and Speed Limits
2. Speed Limits, Stop Signs, Stormwater Best Practices, and Potholes
3. Stop Signs, Potholes, Warm Asphalt, and Porous Pavement
4. Workzones, Snow Plow Safety, Stormwater Best Practices, and Rain Gardens

A 5x5 grid representing a Jeopardy game board. The columns are labeled: ADA Transition Plans, Complete Streets, LRRB Website & Social Media, Systems Preservation, and LRRB Potpourri. The rows represent point values: 100, 200, 300, 400, and 500. Each cell contains the point value. At the bottom left, there is a "Total Points" label. In the bottom right corner, there is a small green map of Minnesota with the LRRB logo below it.

ADA Transition Plans	Complete Streets	LRRB Website & Social Media	Systems Preservation	LRRB Potpourri
100	100	100	100	100
200	200	200	200	200
300	300	300	300	300
400	400	400	400	400
500	500	500	500	500

Answers: Q1 – 1. July 1992; Q2 – 2. Speed Limits, Stop Signs, Stormwater Best Practices, and Potholes
